Applicable Categorical Exclusion

516 DM 11.5; Appendix 4 – 151, E. Realty, #9. “Renewals and assignments of leases, permits, or rights-of-way where no additional rights are conveyed beyond those granted by the original authorizations.”

NEPA Number: DOI-BLM-NV-2012-C010-0021-CX

Project Name: Mineral County Sheriff Kinkaid Renewal

Project Description:

Mineral County Sheriff’s Department has applied for renewal of their existing communications facilities located at Mt. Kinkaid in Mineral County, Nevada, southeast of Hawthorne, Nevada. Their existing facilities consist of an equipment shed, access road, and underground power line.

This would be a standard FLPMA 20-year renewal. No new facilities are being authorized; it is simply a continuance of their current rights. A special stipulation is being added to the communications use lease – see below.

Under current policy, communication use leases are not “renewable.” Therefore, this authorization has been reserialized under NVN 090400. However, nothing but the serial number and the special stipulation will change.
